Charts

The following slides show your school's responses against the All Schools sample for each question, in chart format. You also have the option to filter each chart by year group enabling a more detailed breakdown of responses.

Please note that some questions do not currently have any comparisons to the All Schools sample. These are denoted by a double asterisk (**) at the end of the legend that will be displayed above each chart. The comparative data for these questions will be reviewed and updated over the summer.

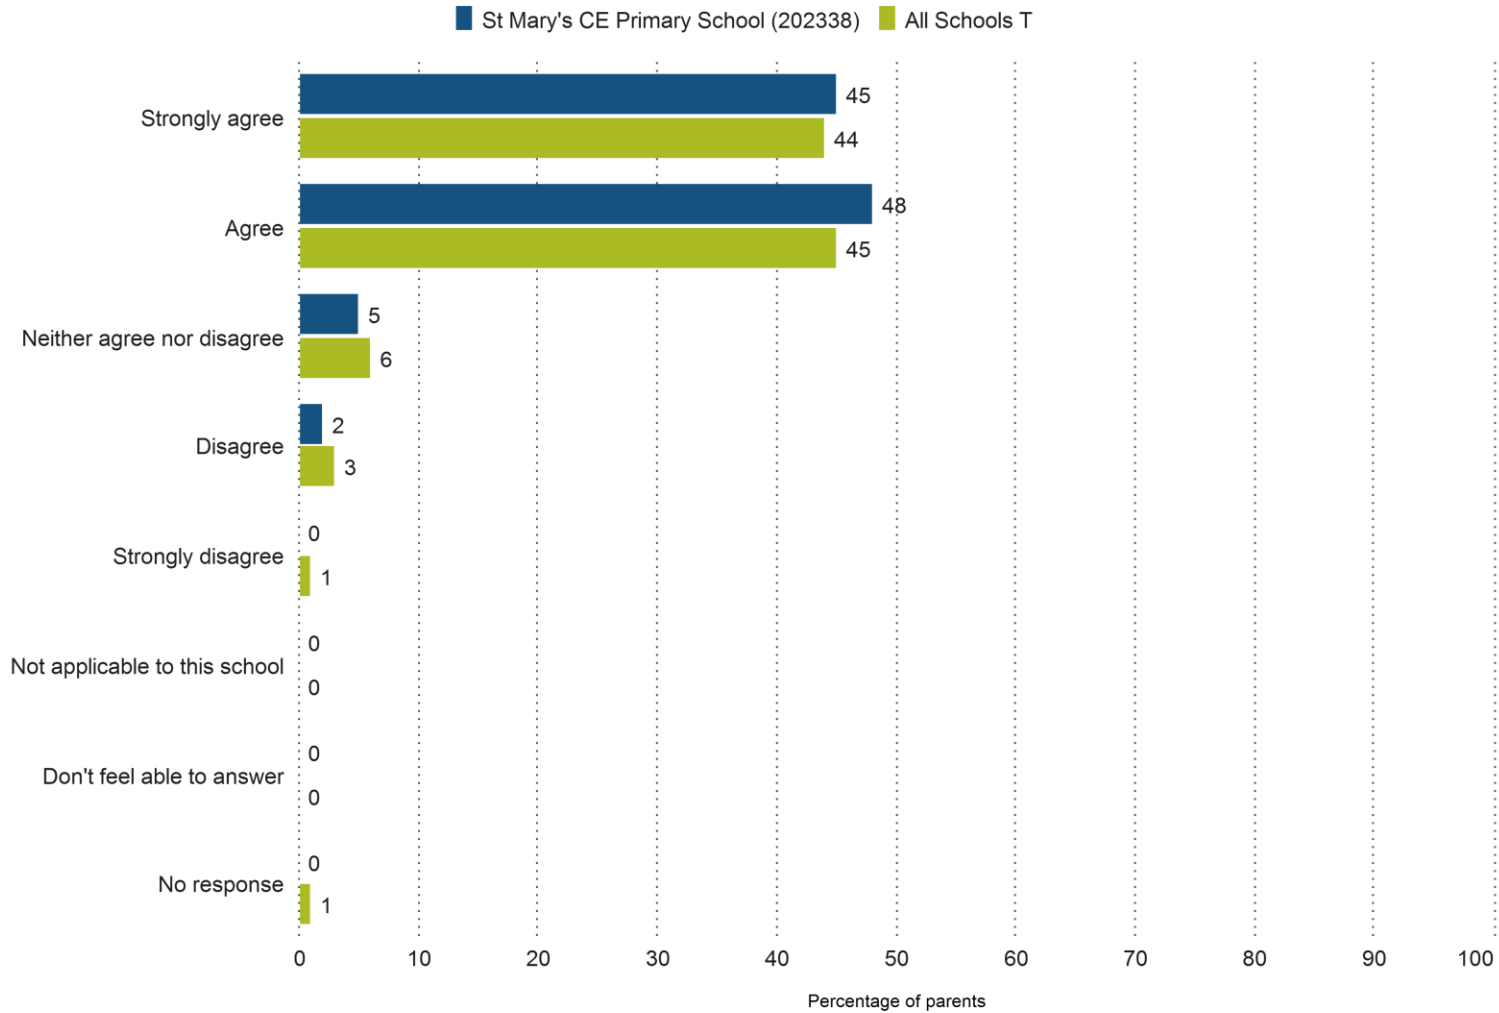

To view your charts use the yellow slide navigation bar at the bottom of the page.
