

To help create a sustainable legacy for our future we have **big** plans...

We aim to transform our playground and outdoor spaces to ensure our children have a complete and enriching experience here at St. Mary's.

At St. Mary's it is time to make a difference and a real change...

Our school's bicentenary will provide our school with a rare opportunity to enhance and re-develop its playground and outdoor spaces.

This will be facilitated through the fundraising initiatives for the school's bicentenary celebrations.

Investing in children's play is one of the most important things we can do to improve our children's health and wellbeing.

The school will be relying on donations to help fund the creation of our new playground and outdoor space. The more money raised, the more we can transform our playground!

Please go to our school website today and click on the '**Donate Now**' button to make a donation.
