

Dear Parent/carers,

Many of you may be aware already that there is a lot of work going on in the Lancaster Hall at St Mary's Church making Scrubs for doctors, nurses, care home workers, GPs etc. etc. in South/South-West London.

This week 96 sets have been sent to Hillingdon Hospital and the Respiratory Ward, Kingston Hospital. The Royal Hospital for Neuro-disability has ordered another 120 and Ashmead Care Home has ordered 200 sets this week.

Below are some pictures of Scrubs all bundled up to be sent out, a very happy nurse with a set of Scrubs that actually fits, some coloured, cheery materials for tops of Scrubs for the Royal Hospital and some cut out sets ready to be delivered to the 50 or so volunteer sewers making the sets up.

How can you help?

The team would still love sewing thread in all colours (ideally spun polyester but cotton also gratefully received). It can be left in a white labelled box outside **1 Redgrave Road**, posted in the **post box on the gate at St Mary's** or left in the **black box that has been left behind the locked black gates, at St Mary's, leading to the riverside garden**, just past the bins at the back of the clock tower. If you leave anything in the post or black box at St Mary's, please text **07841 908 290** specifying where so that items can be picked up.

If you can contribute financially so more material and other sundry items such as tape for trouser ties can be purchased, please click the link below:

<http://virginmoneygiving.com/fund/southlondonscrubs>. If you have any queries, please email Rosie at Parish.Action@parishofputney.co.uk

With many thanks.
The Parish of Putney
