ST MARY'S PLAYGROUND PROJECT

Phase 2 target: £100k

Opening Phase 1 of the Playground Project is a huge milestone - now we need to push on to complete this amazing space for St Mary's pupils!

How you can help

Volunteer at events

FoSMS events rely on volunteers - can you help on the day or in advance?

Make a monthly/one-off donation

Every single donation makes a difference! Add gift aid if eligible to add an extra 25% - higher rate taxpayers can claim marginal rate relief.

Remember free school meals for all saves £45 per month per child this year!

Check employer match funding

Please check whether your employer matches funds raised when you volunteer or donate - this has huge potential!

Assist with grant applications

We are actively researching grant eligibility - please get in touch with any suggestions!

What's next?

The provisional plans for the next phases of the playground include:

- an eco-classroom to be used by all classes
- new garden zones
- an eco-diversity and pond area
- new play and climbing structures
- re-surfacing the front end of the playground
- colourful games within the new polymeric surface

Detailed plans are currently being finalised and more information will be shared with parents as soon as possible

Let's work together to make it happen!
